To Whom It May Concern:

I would like to give my highest recommendation for Suzette Brown, who came to work for us over five years ago as an in house lead designer for my apparel manufacturing business. Streamline Design & Silkscreen is a sportswear manufacturer, producing multiple house brands as well as providing private label branded apparel for over one thousand specialty surf and resort retailers. During Suzette's tenure with us, she was primarily responsible for designing and producing all of our catalogs and marketing collateral. This position required a high level of organization, which Suzette handled with aplomb, as we manage and archive thousands of designs and well as coordinate artwork submissions from multiple outside artists. Suzette is a talented designer capable of handling the most complex of projects. She made my role as owner and creative director infinitely more enjoyable, as she took the lead and ownership in everything from elevating the quality of our catalogs and marketing materials to our branding. Our Coastal Classics catalogs became the 'gold standard' by which our competitors measured themselves against, thanks to Suzette's efforts.

I would not hesitate to recommend Suzette for any role which requires a talented designer who is highly organized and capable of working independently or with a team. Please feel free to reach out to me with any additional questions you may have about her.

Sincerely,

Thom Hill
President/CEO
Streamline Design & Silksreen, Inc.
